RAIL
FREIGHT
CONFERENCE

SAVE THE DATE

MODAL INTEGRATION
AT THE SERVICE OF
GLOBAL DISTRIBUTION

27-29 JUNE 2018
GENOA, ITALY

6TH EDITION
**GLOBAL
RAIL
FREIGHT
CONFERENCE**

After a series of successful editions in **DELHI** (2007), **SAINT-PETERSBURG** (2010), **TANGIER** (2012), **VIENNA** (2014) and **ROTTERDAM** (2016), UIC, in cooperation with Ferrovie dello Stato Italiane S.p.A. (FS), is organizing its 6th Edition of the Global Rail Freight Conference (GRFC), from 27 to 29 June 2018 in **GENOA**, Italy.

GRFC is one of the leading and most prestigious events dedicated to rail freight and logistics at world level. After Rotterdam two years ago where the GRFC took place in parallel with the TEN-T Days of the European Commission, the GRFC is moving to Genoa, another historical landmark of modal integration and multimodal development. Not only is Genoa one the key entry points to the busiest European Railfreight Corridor – Corridor Rhine Alpine - but it is also a key hub offering a natural link between European Rail Freight Corridors, Eurasian Corridors and the New Silk Roads.

The main conference topic, ***"Modal Integration at the service of Global Distribution"*** will be addressed by a host of prominent speakers representing the political and economic sectors, international

institutions and all actors of the logistics chain, among them railways, ports and shipping lines, multi-modal operators, shippers.

Guest speakers will hold panel discussions on topics such as:

- Mega trends shaping the future of global logistics
- The race towards smart mobility
- Rail Freight Corridor development including the new Silk Roads
- How digitalisation and blockchain technology are reshaping the business
- Security of the Logistic Chain

to name but a few.

Over the two days of the Conference, the sessions will propose lively debates, also offering the audience the opportunity to interact with panelists.

As in previous editions, a professional exhibition will run in parallel to the Conference. More information is available on the GRFC website
