

RAILSCANNER

ABOUT COMPANY

- RailScanner has been established in 2018, in cooperation with leading experts in railway industry throughout Europe and leading IT experts in e-commerce
- Based in Prague, Czech Republic, in the heart of Europe

MARKET ANALYSIS

In the world of wagon rental exist currently following shareholders:

- state owned railways / private owned railways
- wagon rental companies / wagon producers / locomotive rental companies
- Forwarding / spedition companies
- Producers and traders of products that need railway transportation

THESE COMPANIES ARE NOT INTERCONNECTED

MARKET ANALYSIS

- Wagon rental companies struggle to utilise full scale of their fleet, locomotives suffer from idle time
- Companies demanding wagons have difficulties to find suitable type for their needs at specific time
- Offer and demand don't meet each other
=> due to the lack of interconnection and lack of connection means

INNOVATIVE SOLUTION

- Online platform enables to all existing lessors on the market to share their free wagon capacities on the market
- Lessees are able to scan the whole market of all available free wagon assets or locomotive assets, choose the best option, based on the technical details and territorial position
- Offer and demand in wagon/loco rental industry will meet in one platform
- All offers from Lessors are transparent, easy to be find, filtered for exact needed detail of technical, commercial and territorial information

VISION

- RailScanner - Internet tool to interconnect all wagon/locomotive rental shareholders on the railway market.
- We bring IT innovation into the railway industry for everyday usage and make wagon/locomotive rental easy, smooth and fun to deal with. We believe this is the right step for railway industry.
- Further plans are to add backload capacity check, find technician/workshop in any country, container rental search,
