

METRANS

The new project

BERLIN 2019 (Königs Wusterhausen)

Regular shuttle train products for our customers

HAMBURG – BERLIN

New intermodal transport offer from **04.11.2019**

METRANS is one of the market leaders in container hinterland logistics in Central Europe (CEE), with more than 28 years of market experience and an annual transport volume of more than 1 million TEU.

The network system of METRANS is mainly based on its own resources:

- Own transshipment points – hubs, terminals, depots
- Own fleet of rail vehicles – locomotives, wagons and own train crew
- Portfolio of reliable partner for trucking delivery (Last Mile)

This concept provides our customers with reliable intermodal port-to-door v.v. transport solutions.

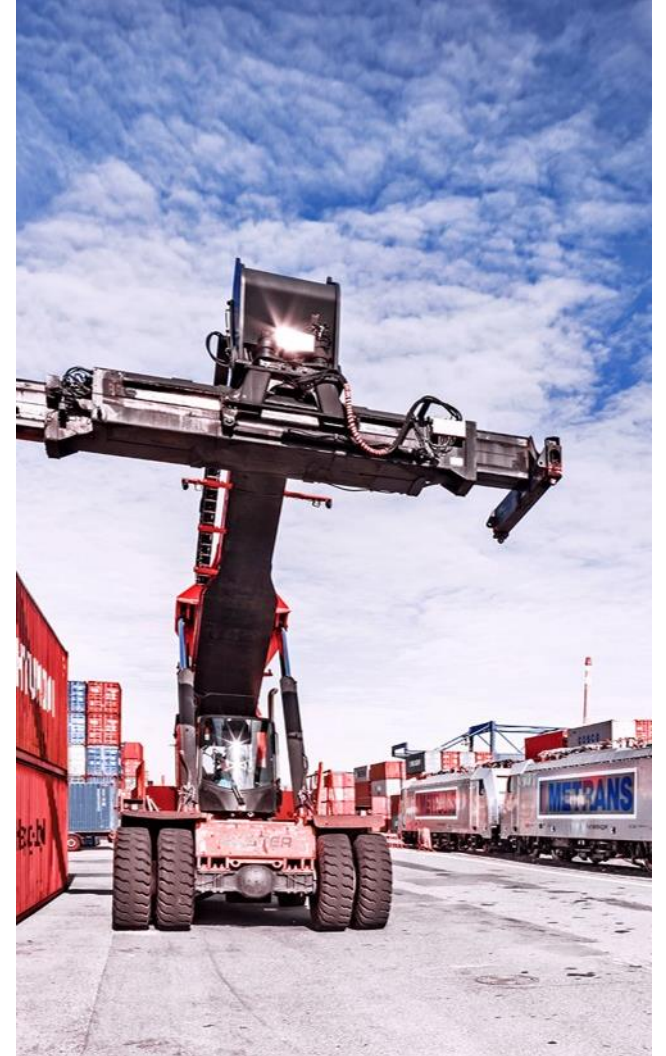

Our high-frequency shuttle train system connects the ports of Hamburg, Bremerhaven, Rotterdam, Duisburg and Koper with the economic centres in the Czech and Slovak Republic, as well as in Germany, Hungary, Austria and Poland.

In response to demand, we are continuously expanding our intermodal network and developing in further. From **04.11.2019** we offer a regular connection between Hamburg and Berlin, v.v. with the simultaneous connection to our existing network via own Czech hubs in Prague and Česká Třebová as well as to the container terminals in Hamburg and Bremerhaven (via Hamburg).

The following pages provide you an overview of our new product and contacts.

For further inquiries and offers we are at your disposal.

Thank you for your trust!

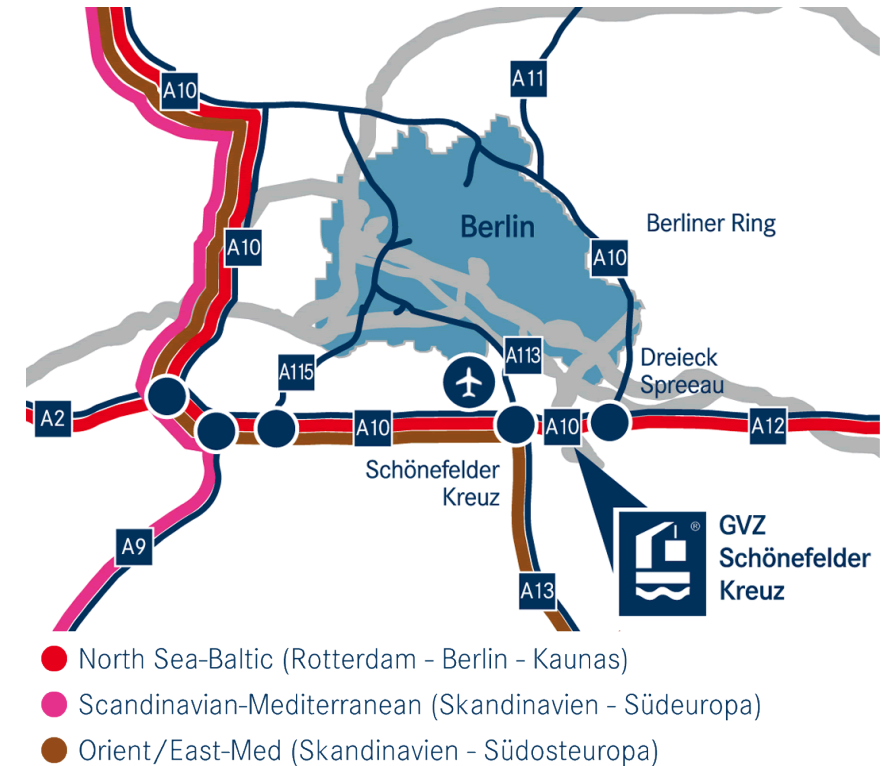

TERMINAL METRANS BERLIN (KÖNIGS WUSTERHAUSEN)

In cooperation with **LUTRA GmbH**, the operator of the logistic center (GVZ) Schönefelder Kreuz, **METRANS Group** is expanding its own network and will offer the established services, the transports, but, for the first time the depot and terminal services in Germany, under the **METRANS flag** in the usual **METRANS quality**.

The GVZ Schönefelder Kreuz is located 25 kilometers southeast of Berlin and is connected not only on the road side, but also on the rail side directly to the important European Transport Corridor II.

The southern Berliner Ring (A 10) leads straight to the front door of the GVZ Schönefelder Kreuz.

DEPOT AND TERMINAL MANAGEMENT

Services offered

- METRANS rail connection
- Trucking deliveries
- Container terminal and depot for empty containers with the METRANS standard
- VGM – Weighing to SOLAS
- Dangerous goods possible
- Reefer container – Plug Ins
- Customs clearance
- All processes controlled by the central METRANS IT system

HAMBURG – BERLIN v.v.

- From **04.11.2019** we are offering a direct and reliable connection between the port of Hamburg and the hinterland terminal METRANS Berlin. Our regular trains will run regularly between the Hamburg container terminals CTA, CTB, EKOM and the terminal METRANS in Berlin Königs Wusterhausen and thus offer you an optimal solution for the transport of your shipments.
- For the last mile transports in the hinterland we use our long-term partners / trucking companies, which can arrange the delivery according wishes of our customers optimally with aspects of time and economy.
- The high quality of METRANS service is supported by our own IT system which is the steering tool connecting all terminal operations incl. loading and unloading the trains, gate IN / OUT handlings and truck planning.
