

Common Portal for Rail Service Facilities

EC Contract MOVE/C3/2017-198

MED RFC Advisory Group Meeting
Marseille, 27 February 2019

Directive 2012/34: obliges Infrastructure Managers and Service Facility Managers to

- publish information concerning the capabilities of their facilities,
- the conditions of access,
- any temporary capacity restrictions,
- available capacity,
- new services and
- unused capacities/facilities (available for lease).

+ Implementing Regulation 2017/2177
on access to service facilities and use of
rail-related services

Regulation 913/2010: obliges (Rail Freight) Corridor Management Entities to

- compile and make available information – including available capacities – on freight terminals and junctions through the Corridor Information Document
- In addition the information is published in the Customer Information Platform (CIP)

Source: UIRR

Project consortium: six entities working together since 2013

Traffic • Software • Service

OF RAILWAYS

... the worldwide organisation for the promotion of rail transport

...the European association for road-rail combined transport

Static: Service Facility Description

Service Facility Description

- Physical parameters
 - Services: basic, additional and ancillary
 - Opening hours
 - Contact details
 - Access conditions, including prices and discount schemes
 - Access application, conflict resolution and complaint procedures
- + General Terms and Conditions (outside the information required by the Implementing Regulation)

Dynamic messages

- Force Majeure (limitation to access)
- Planned maintenance (limitation to access)
- Capacity Availability (traffic-light indicator)
- New capacity and new service announcements (optional)
- Facility closure advertisement

Concept for a portal design: market requirements+existing systems+law

Rail Locations Portal

Other IT solutions / databases

e.g. Merits (UIC), EVAplus, Railway Tools (DB)

EU legal requirements

e.g.

- Directive 2012/34/EU
- Implementing Regulation
- TAF/TAP-TSI

Market requirements - freight

- Modal shift
- Key target groups
(e.g. rail freight operators)
- Information needs: facility types
information details per facility
- System features

Market requirements - passenger

Equipment

Public accessibility

- Open for all market bodies
- Public access with conditions
- Access limited to owner/operator

Remaining tasks: testing, refinement/bug-hunting, initial data feeding, demonstration

90%

Create Common Portal on rail service facilities

- EU-wide, User-friendly
- Accepted and used by the sector ("Tool of choice");
- Compliant with EU legislation: (Dir 2012/34/EU, Reg. 2017/2177, RFC Regulation 913/2010)
- Serving market needs

50%

Prepare conditions for a self-sustainable portal operation

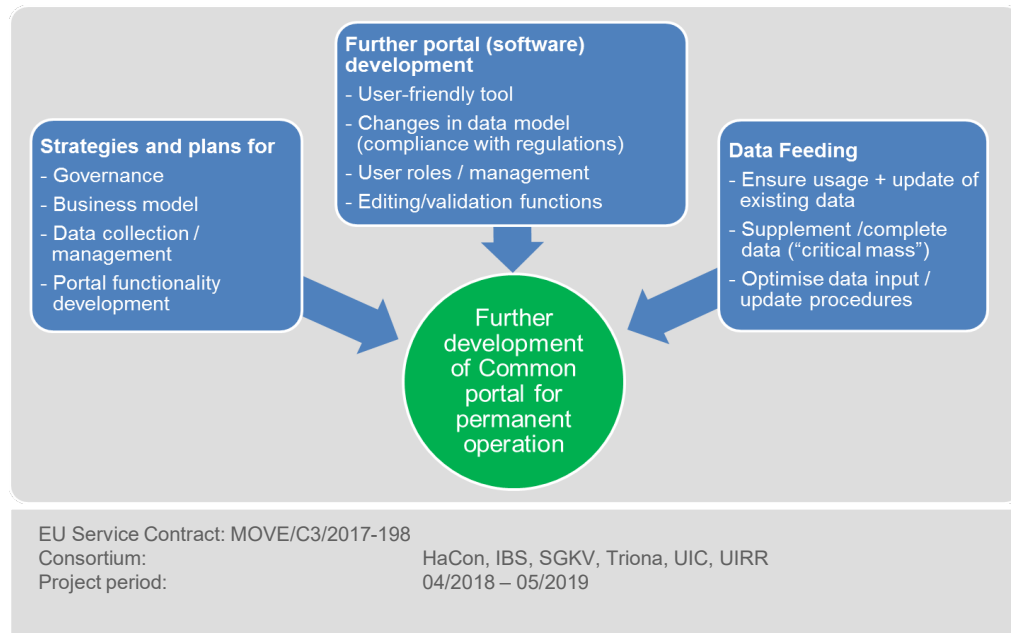

- after the project
- technical portal status, governance structure, business model

30%

Initial data feeding

- to ensure a "critical mass" of facility data at operation start

Stakeholder conference:
May 2019, Brussels

Recruiting: MED RFC test users (max 2)

Data feeding: need MED RFC service facilities

Live demo: if time allows

The screenshot displays the Rail Facilities Portal interface. A modal window titled "Terminal Conteneur Combiné Fos" is open, showing detailed information about the facility. The background shows a map with a search bar and a list of facilities visible on the map.
