

UIRR Press Release – 22.12.2004
ICA as full member of the UIRR from 01.01.2005

Brussels and Vienna, December 22, 2004

In September 2004 Intercontainer Austria (ICA) already set the course for new partnerships in 2005 when it requested acceptance as a full member in the UIRR (International Union of combined Road-Rail transport companies).

On Dec. 14, 2004 ICA had the opportunity to make a presentation of the company to the UIRR Board of Directors in Brussels, which led them to unanimously agree on the membership of ICA from 01.01.2005 onwards.

Where ICA will, through recourse to all possible synergies and experiences and to the advantage of its customers, benefit from new opportunities for 2005 to create and develop products in cooperation with other European combined transport companies, the voice of UIRR will also be strengthened, as it will soon have 20 members established in 14 European countries, which together handle over two thirds of the freight traffic transferred to rail by operators.
